D. WARD KING TO BRAZIL.

Split-Log-Drag Man Wanted in South America on Their Roads.

From away down in South America comes a communication to D. Ward King of Maitland, the road drag man, asking him to come to Brazil and direct extensive road improvements, which are to be made throughout the more thickly settled agricultural districts of that country, states the Maitland Herald. It has been estimated that the cost of rural transportation in that country is 100 per cent greater than in parts of the United States on account of their poor road system, and realizing that to improve their agricultural conditions better roads must be had, the government is now seeking men of ability and experience to help them with their work.

Mr. King is considering the proposition of the Rio de Janeiro people and will probably arrange to go, but expects to limit his absence to one year, as he would not consent to be away from Missouri interests for more than a year at one time.

An ordinance was adopted giving the board of public works power to appoint the following officers in the operation and management of the water works plant by the board:

WHAT THE CLUB DID

THE REPORT OF SOME OF THE THINGS ACCOMPLISHED.

NOW AFTER AN EXPERT

Commercial Club Has Done a Great Deal for Maryville—Plans for the Future.

In a letter sent out by the Commercial club, an outline of the work done for the past six months, ending December 31, 1912, is given by John I. Hoffman, secretary of the club. The club has accomplished a great deal during that time for the interest of Maryville, and the prospects are fine for much greater work to be accomplished during the next year.

Here are some of the things the club has done or attempted to do during the past six months.

They have conducted a series of sales days for six months.

They have placed the Saints Highway in the Blue Book.

The have assured a white way of ten blocks for the city.

They helped to bring the next state convention of the mutual insurance companies to Maryville.

They have induced outside capital to come to Maryville to build modern homes to be sold on the installment plan.

They have insured the farmers' short course for February.

They tried, but failed, to establish a central grocery delivery system.

They have co-operated with the Nodaway County Live Stock and Agricultural association on a $50,000 bond issue for the good roads for Polk township.

Here are some of the things the club is working on that it expects to accomplish in the near future:

FIRE AT LENOX.

Fine Two-Story Building Destroyed Friday Afternoon—Creston Department Responded.

A disastrous fire Friday afternoon entirely destroyed the fine two-story Odd Fellows' building at Lenox, and for a time threatened to wipe out the entire business district. The danger was so great that a call was sent for the assistance of the Creston fire department, and all speed records were broken in the response. The call was turned in at 12:42 p. m., and at 1.55 the Creston firemen were on the scene, only an hour and thirteen minutes having been required to summon a train crew, make up the train and run the seventeen miles to Lenox.

When Creston arrived, the fire was partially under control, and in a few minutes more the united efforts of the two fire departments had checked the spread of the flames.

The blaze originated in the second story of the building, which is used as a lodge room by the Odd Fellows, the Woodmen, the Royal Neighbors and the Relief Corps. The lodge and drill team regalia of all these orders was a total loss, but the implement and harness stock of Martin & Martin, who occupy the ground floor, was nearly all saved.

The building was owned by the Odd Fellows and Dr. J. P. Scroggs, and was valued at $6,000. Dr. Scroggs' loss was fully covered by insurance, and the Odd Fellows carried about $2,000, so that the loss of the building is well covered. No insurance was carried on the lodge regalia, however, and that loss will be heavy.

Inspiration.

I show men things they do not see,
So oft they pass them by;
And some have found new things to love,
New splendors in the sky.

I pull the veil from Mystery,
And show her cynic's smile;
Men look a foolish look, and feel
They knew her all the while.

I give a youth the power to tell
Old lore that is like new;
The wise men wag their heads and frown,
And know his words are true.

A beggar played his violin
Where wind folk sob and sing;
I whispered to his heart, and now
He plays before the king.

The crowd saw but the parts of steel
Piled high before their eyes.
Long to the builder's heart I came—
He saw his tower rise.

I am a guest that comes and goes,
Not lured by throne or mart;
I give to Man the loaf of Life—
Or else I break his heart.

—Ainslie's.

Advertising Farm Poultry.

If you poultry fanciers were as good advertisers as the roosters you exhibit your profits would climb to centerpole heights the first year. No sooner does a man enter the exhibit room than the roosters begin an ear-splitting contest for his attention. They know they have merits and have an idea the best way to distract attention from blue-blood rivals is to attract attention to themselves; which is the true spirit of advertising. What profit it, fellow fanciers, if you have the best birds in the world if the world knows nothing about it? And how is the world going to know about it if you are too modest or too close-fisted to tell about it? Do you send good money to distant states for stock for improving your flock just because you accidentally heard of the fancier who got your order or was it because you saw his advertisement somewhere? And how do you expect to get orders from other neighborhoods than your own unless you buy an occasional bit of advertising space—Jack Blanton in the Paris Appeal.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

FLOCK TO "POOR MAN'S BANK"

Loans Aggregating $50,000 Asked of St. Louis Institution at Opening.

St. Louis, Jan. 4.—When the Industrial Loan company, the poor man's bank, promoted by Colonel James Gay Butler, the philanthropist, to prevent small borrowers from falling into the hands of "loan sharks," opened for business at 728 Chestnut street hundreds of men and women were standing in line on the sidewalk to file their applications for loans. Through members of the board of directors and stockholders, applications for loans aggregating $50,000 were on file before the bank formally was opened.

All applications received were taken up immediately for investigation. Within two days the applicants will be informed as to whether the loans will be made. The bank is capitalized for $200,000.

St. Louis Widow Adopts Young Man Because He's "Nice."

St. Louis, Jan. 4.—Mrs. Pauline Richers a widow, seventy years old, has legally adopted William Fred Linders, nineteen years old, as her son and heir to be, because, she says, he is "the nicest mannered boy in the neighborhood." The deed of adoption has been filed with the recorder of deeds.

"Since my husband died three years ago I have felt very lonely," Mrs. Richers said. "I have known Willie's family twenty years and have seen him grow up from infancy. I never have seen a cleaner or better boy. He does not smoke or drink and he is always pleasant and particularly kind to old persons. What little money I have I shall leave to him when I die."

Law Shields a Boy Slayer.

Kansas City, Jan. 4.—A term in the reformatory is the only punishment that can be given Walter Cecil Davis, the fourteen-year-old boy who killed Hugh Landy, eleven years old, by dropping a paving stone upon his head. Youth shields him from a life time sentence should he be found guilty of murder in the first degree. Davis was taken before Judge Sims in the juvenile court and his preliminary set for Jan. 11. He entered a plea of not guilty.

IRON WORKERS GRANTED BAIL

Bonds of $1,100,000 Required of 32 Convicted Men.

SIXTY DAYS TO FILE APPEAL.

Judge Baker of United States Court of Appeals Intimates Undue Haste Used in Committing Men to Leavenworth—Hockin Not Affected.

Chicago, Jan. 4.—Bonds aggregating $1,100,000 must be given if thirty-two of the thirty-three labor leaders convicted of conspiracy to transport dynamite are to take advantage of the granting of a writ of supersedeas staying the execution of their sentences by the United States circuit court of appeals in this city.

Whether this sum can be obtained was admitted by counsel for the defendents to be a matter of grave doubt, but they expressed the belief that at least some of it could be secured—enough to accomplish the liberty of President Frank M. Ryan and a few others until a decision has been reached on an appeal, for the filing of which the court allowed sixty days.

The decision involves only thirty-two of the thirty-three men now in the Leavenworth penitentiary, as Herbert S. Hockin, designated among his fellow prisoners as the "informer," will not appeal.

Judges Baker and Seaman heard the arguments and the decision was given orally by Judge Baker. He took occasion to intimate that undue haste was manifested at Indianapolis in committing the defendants to prison.

The writ was issued largely on the point raised by the defense that the iron workers were convicted of a conspiracy to commit offenses continuously.

Anderson to Pass on Bonds.

In fixing the amount of bail the court was influenced by the fact that the offenses involved are not extraditable. Judge Anderson, who presided over the trial court at Indianapolis, was authorized to pass on the suitability and adequacy of any bonds offered. District Attorney Miller of Indianapolis, who represented the government at the proceedings, said the bonds of surety companies probably would be acceptable, but that the surety must schedule in property twice the amount of the bond.

A basis of $10,000 for each year's sentence was used by the court in fixing the amount of the bonds. As Ryan was sentenced to seven years, his bond was fixed at $70,000, and the same ratio was preserved throughout for the other convicted men.

TURKS MUST YIELD BY MONDAY OR FIGHT

Ultimatum Follows Reading of Ottomans' Terms.

London, Jan. 4.—Although the word "ultimatum" was not pronounced, what practically was an ultimatum was presented to Turkey at the peace conference on behalf of the Balkan allies. Lazar Miyuskovitch, head of the Montenegrin delegation, after the Turks had submitted a proposal which was considered inacceptable, told Rechad Pasha, chief delegate of the Ottoman empire, that either by Monday Turkey must find a way to renounce to the Balkan allies her rights over the island of Crete, cede the islands in the Aegean sea and present a rectification of the frontier of European Turkey, which would include Adrianople in the territory of the allies, or the allies would consider that further peace negotiations were useless.

AUTO BANDITS GET JEWELRY

Running Battle Is Carried On in Streets of Chicago.

Chicago, Jan. 4.—Four automobile bandits smashed in a jeweler's window here and escaped with a tray of diamonds, after a revolver fight with the police, punctuated with spectacular features. Their escape was aided by a fashionably dressed woman, who fainted in the arms of a uniformed policeman as he was drawing his revolver. As soon as the thieves were out of sight the woman recovered herself and disappeared.

A few minutes later the bandits' car was boarded by a policeman, who ordered them to drive to a police station for speeding. They wheeled into a quiet street with the policeman and there shot, stabbed and slugged him and threw him off the car.

The men abandoned their automobile, which had been stolen just before the robbery, and disappeared in a crowded section of the west side. The raid and running fight was one of the most thrilling automobile bandit outrages in the recent prevalence of this type of crime in this city.

Indian Councilors Removed by Fisher.

Washington, Jan. 4.—Seven members of the Osage Indian tribal council were removed from office by Secretary of Interior Fisher, who alleges in a statement that the council was influenced by the Uncle Sam Oil company and three individual applicants who had tried to secure the lease of 800,000 acres of oil and gas land, comprising the entire unleased portion of the Osage reservation. The secretary ordered a new council elected.

ROCKEFELLER TO ACCEPT SERVICE

Agrees to Receive Subpoena, but Will Not Testify.

TOO SICK TO BE A WITNESS.

Independent Opinion Concerning the State of Health of Mr. Rockefeller May Be Required by Congress—Will Not Endanger His Life.

New York, Jan. 4.—William Rockefeller has agreed through his counsel, John A. Garver, to accept service of a subpoena to appear on Jan. 13 before the Pujo committee of the house of representatives at Washington investigating the money trust, according to an announcement made at the office of Samuel Untermyer, counsel for the committee. Mr. Untermyer, in behalf of the committee, it was said, has by the direction of Chairman Pujo accepted these offers.

No intimation of the whereabouts of Mr. Rockefeller was contained in the statement. As a result of the agreement the sergeant-at-arms of the house has been instructed to discontinue his efforts to effect service on William Rockefeller.

While accepting service, the statement avers, Garver advised Untermyer that Rockefeller's condition of health is very precarious and that it would be impossible for him to appear as a witness at Washington or submit to examination at his home.

Mr. Rockefeller has been informed that having now submitted to the authority of the committee, he must present his excuses to the committee in due form for such action as it may deem proper. If it is established to the satisfaction of the committee that it will be impossible to obtain the testimony of Mr. Rockefeller without imperilling his life, the statement says, the committee would, of course, not feel justified in taking any such extreme action. It may, however, conclude to secure an independent opinion.

VIOLENT STORMS IN EAST

Disturbances Pursue Erratic Course Through Entire Country.

New York, Jan. 4.—The first severe storm of the new year and the most destructive one of the season swept along the Atlantic coast, causing great property loss. Simultaneously came reports of storms of equal violence in portions of the south and middle west and along a part of the Pacific coast. Wire communication in all sections of the country was crippled. Damage caused to shipping on sea, lake and harbor can only be estimated.

One death has been reported here, that of a Brooklyn man, blown from a scaffold.

In this city rain was followed by a gale that reached a maximum velocity of eighty miles an hour, working havoc on land and water. Reports from up-state and suburban points told of suffering and damage caused by the wind.

The hurricane-like storm lashed up high waves from Sandy Hook to the river's entry into New York harbor, sinking tugs and barges and driving other craft into perilous positions. From capsized small craft scores of persons were rescued.

CASTRO MAY BE RELEASED

Writ of Habeas Corpus Is Granted by Federal Court.

New York, Jan. 4.—A writ of habeas corpus was granted for the release of Cipriano Castro from Ellis island by the federal court here, in the contention that the former president of Venezuela was being held "without any authority of law" and that he had been denied the right to consult with an attorney. The application was made by George Gordon Battle.

The action in Castro's behalf came as a great surprise, inasmuch as he had announced that he would voluntarily leave the country, having set his departure for today on the steamship Amerika.

Judge Holt set no date for the return of the writ. Mr. Battle went immediately to Ellis island for a conference with his client.

Long Brief Filed in Case of Mylius.

New York, Jan. 4.—One of the longest "briefs" ever filed in the case of a detained immigrant is an appeal from the order of the special board of inquiry that Edward F. Mylius, who had served a year in an English prison on conviction of having published a libel against King George of England, be deported. The appeal contends that his offense was a political one and did not involve moral turpitude.

Senator Bailey Hands in Resignation

Washington, Jan. 4.—Senator Joseph W. Bailey sent his resignation as senator from Texas to Senator Gallinger, to take effect immediately. R. M. Johnston is now in the city and Senator Bailey said that he would be appointed by the governor to succeed him, with the expectation that the legislature when it meets would elect him to fill out the unexpired term.

Old Proverbs Made New.

Governor Wilson's remark that if any one starts a panic he will hang him higher than Haman suggests the bringing of several proverbs down to date. For instance:

A threat in time saves nine.

An ounce of warning is worth a pound of punishment.

A word to the sacred is sufficient.

To Wall street:

The fear of the law is the beginning of wisdom.—The Commoner.

A Hero in a Lighthouse.

For years J. S. Donahue, So. Haven, Mich., a civil war captain, as a lighthouse keeper, averted awful wrecks, but a queer fact is, he might have been a wreck himself if Electric Bitters had not prevented. "They cured me of kidney trouble and chills," he writes, "after I had taken other so-called cures for years, without benefit and they also improved my sight. Now, at seventy, I am feeling fine." For dyspepsia, indigestion, all stomach, liver and kidney troubles, they're without equal. Try them. Only 50 cents at the Orear-Henry Drug Co.—Advertisement.

Water Surface of Globe.

The portion of the earth's surface that is covered by water, when the lakes and inland seas are included, is three times as great as the dry land area. The surface area of the oceans is 127,000,000 square miles—an area more than 40 times as large as the United States. The ocean waters teem with life. Though thousands of water creatures are known and classified, scientists are continually discovering new life forms in the ocean depths. Heretofore dragnets have been mainly depended upon, but there are doubtless many sea animals that elude these trawls.

Books Bound in Rat Skin.

It appears that a new use has been found for the skin of the common brown rat. In England, it is said, the bookbinders have taken to using these skins for covers of fine editions hitherto bound in high grade leathers. It is reported that a trade amounting to one-quarter million dollars a year has developed in Great Britain and that many skins are imported from Calcutta. Rat skins have long been used for purses, gloves and similar small articles, and are proving very useful for these purposes.

GIVING THE PLUG HIS DUE

Steadygoing, Sensible Qualities Are Not Always Accorded the Recognition That They Deserve.

Don't make fun of the plug. He may be slow and awkward and never get to the stable until dark, but he is the fellow who in the end will bring home the coin, says a Kansas City writer. The plug horse that pulls the lister all day in the field puts more money in the bank for the honest farmer than the race horse that goes out and turns a half in 0:50 flat and then loafs for two weeks waiting for another race to be matched. The old plug goes out in sunshine and storm and pulls in a few dollars every week, but the race horse waits for the day when the track is good and then generally loses more than he wins. The steady old plug keeps the wolf from the door, while the race horse causes the mortgage to be foreclosed.

Just so with the man. Pin your faith to the plug who keeps eternally at it; the fellow who gets up every morning and does so much and is ready to do it again next day. He lays up more shining dollars in the bank than the swift sport who lies around all summer waiting for luck to come along and turn a stream of silver into his pocket. One cackling Plymouth Rock hen is worth a dozen screaming eagles when it comes to paying off the mortgage. The plug is the fellow who steadies the ship and acts as ballast when the boat begins to rock. The plug is the fellow who lives contentedly and long and when he passes away the local paper says, "He leaves his family in comfortable circumstances."

First "Man of Straw."

The phrase, "a man of straw," had its origin in England at a time when men might easily be procured to furnish evidence upon oath in almost any emergency. It appears that persons of this description were accustomed to walk openly in Westminster hall with a straw projecting from their shoes, thus signifying they sought employment as witnesses. Hence the expression.

An advocate who desired a convenient witness knew by this sign where to find one; and the colloquy between the two was brief.

"Don't you remember?" the advocate would ask. The party would glance at the fee and give no sign, but when the fee was increased his powers of memory increased with it, and straw shoes went into court and swore as desired.

Miss Ida Farran went to St. Joseph Saturday morning.

MADE HIM GOOD AMERICAN

Act of Wise Father That Kept His Boy in the Path of His Birth and Duty.

It is claiming rather a great deal to say that a child's whole future career may depend upon the hearing of a story! But, unquestionably, it is true. A boy I know, whose parents were obliged to live in England during two of his early years—from the time he was eight until he was ten—said to his father one day: "Am I an Englishman, an American, or haven't I any country at all?"

His father, a loyal American, startled at this question, read to the boy "A Man Without a Country."

"You are an American," he told the boy. "Never forget that!"

The boy, now a man, is just about to enter the United States army. Much of his life has been passed in other countries, but he is an American.

"I think I might have become an Englishman, or a man with no particular loyalty to any flag," he said recently, "had it not been for the story of 'A Man Without a Country,' which my father read to me when I was a little boy in England. I didn't understand all of it, but I understood enough to keep me forever loyal to the land of my birth, no matter where I might happen to be growing up."—Elizabeth McCracken in the Home Progress Magazine.

Giant Conflict.

Two huge fish, a shark and a jewfish, fought to their death late the other afternoon, off the municipal pier at Santa Monica, Cal., while hundreds of fishermen looked on. Both sea monsters followed a school of mackerel in-shore and as soon as they sighted each other the battle was on. During the combat, which lasted an hour, both fish were nearly entirely out of the water. Then they disappeared for a few moments, when both again came to the surface dead. With gaff hooks they were hauled on to the pier. The shark, measuring six feet in length, weighed 142 pounds, while the jewfish, a fraction over seven feet, tipped the pier scales at 226. Both were frightfully mangled. The shark's head was chewed to a pulp, while the jewfish's body was nearly severed by the sharp teeth of the shark.

Mr. and Mrs. T. P. Curran of Barnard spent the day Saturday in Maryville with Mr. and Mrs. John Bookman.

David Richey and M. C. Richey will leave soon for Springfield, Mo., where they are intending to locate.

D. WARD KING TO BRAZIL.

Split-Log-Drag Man Wanted in South America on Their Roads.

From away down in South America comes a communication to D. Ward King of Maitland, the road drag man, asking him to come to Brazil and direct extensive road improvements, which are to be made throughout the more thickly settled agricultural districts of that country, states the Maitland Herald. It has been estimated that the cost of rural transportation in that country is 100 per cent greater than in parts of the United States on account of their poor road system, and realizing that to improve their agricultural conditions better roads must be had, the government is now seeking men of ability and experience to help them with their work.

Mr. King is considering the proposition of the Rio de Janeiro people and will probably arrange to go, but expects to limit his absence to one year, as he would not consent to be away from Missouri interests for more than a year at one time.

The remaining number will be baptized by immersion at a later time.

The meetings were carried on during Rev. Royston's illness by Mr. Washburn, the singing evangelist, who spoke everynight but four, when Rev. DeWitt of Barnard preached twice and Rev. Gilbert S. Cox of Maryville spoke twice.

Mrs. J. C. Allender returned Saturday noon from Ft. Scott, Kan., where she has been visiting her sister, Mrs. Campbell.

POWER TO BOARD

TO SELECT MEN NECESSARY TO RUN WATER WORKS PLANT.

TO ADDRESS COUNCIL

Dr. Taylor to Talk to Members About Censorship of Picture Shows—No Action on Insurance Petition.

The regular meeting of the city council was held Friday night and lasted until midnight. The board of public works members were in attendance and addressed the council as to what they had done and what they want to do in the future.

An ordinance was adopted giving the board of public works power to appoint the following officers in the operation and management of the water works plant by the board:

Superintendent of operation at a salary not exceeding $95.00 a month. L. A. Denny has been selected for this position.

Engineer and superintendent of construction and improvement at a salary not exceeding $95.00. It is understood that F. L. Flynt will be selected for this position.

Chief engineer at pumping station at a salary not exceeding $55.00 with the occupation of dwelling at pumping station free. No appointment has been made by the board for this place.

Second engineer at pumping station at a salary not exceeding $65.00. No apopintment has been made for this place.

The board is also given authority to employ and hire day laborers as may be necessary and to pay them what is then considered the standard wages in the city. All of the expenses of these officers are to be paid out of fund called the water works funds.

A petition signed by a large number of merchants and property owners was presented to the council by Charles Stillwell requesting the council to take off the occupation tax from the insurance companies doing business in Maryville. No action was taken by the council on the matter and it is thought that the council will not do anything in this matter.

A communication was read to the council from President H. K. Taylor of the Normal, who wants to address the council on the moving picture shows of the city and also to talk about a censorship of these shows. The council granted Dr. Taylor permission to address them and will hear him at their next meeting on Friday night, January 17.

The council instructed Burt M. Rowley, chief of the fire department, to inspect all of the basements in the business section of the city and have them cleaned.

WHAT THE CLUB DID

THE REPORT OF SOME OF THE THINGS ACCOMPLISHED.

NOW AFTER AN EXPERT

Commercial Club Has Done a Great Deal for Maryville—Plans for the Future.

In a letter sent out by the Commercial club, an outline of the work done for the past six months, ending December 31, 1912, is given by John I. Hoffman, secretary of the club. The club has accomplished a great deal during that time for the interest of Maryville, and the prospects are fine for much greater work to be accomplished during the next year.

Here are some of the things the club has done or attempted to do during the past six months.

They have conducted a series of sales days for six months.

They have placed the Saints Highway in the Blue Book.

The have assured a white way of ten blocks for the city.

They helped to bring the next state convention of the mutual insurance companies to Maryville.

They have induced outside capital to come to Maryville to build modern homes to be sold on the installment plan.

They have insured the farmers' short course for February.

They tried, but failed, to establish a central grocery delivery system.

They have co-operated with the Nodaway County Live Stock and Agricultural association on a $50,000 bond issue for the good roads for Polk township.

Here are some of the things the club is working on that it expects to accomplish in the near future:

Employ an agricultural expert for the county.

Establish an employment bureau.

Organize a Young Men's Christian association.

Work a system of railroad rebates much like that used in St. Joseph.

FIRE AT LENOX.

Fine Two-Story Building Destroyed Friday Afternoon—Creston Department Responded.

A disastrous fire Friday afternoon entirely destroyed the fine two-story Odd Fellows' building at Lenox, and for a time threatened to wipe out the entire business district. The danger was so great that a call was sent for the assistance of the Creston fire department, and all speed records were broken in the response. The call was turned in at 12:42 p. m., and at 1.55 the Creston firemen were on the scene, only an hour and thirteen minutes having been required to summon a train crew, make up the train and run the seventeen miles to Lenox.

When Creston arrived, the fire was partially under control, and in a few minutes more the united efforts of the two fire departments had checked the spread of the flames.

The blaze originated in the second story of the building, which is used as a lodge room by the Odd Fellows, the Woodmen, the Royal Neighbors and the Relief Corps. The lodge and drill team regalia of all these orders was a total loss, but the implement and harness stock of Martin & Martin, who occupy the ground floor, was nearly all saved.

The building was owned by the Odd Fellows and Dr. J. P. Scroggs, and was valued at $6,000. Dr. Scroggs' loss was fully covered by insurance, and the Odd Fellows carried about $2,000, so that the loss of the building is well covered. No insurance was carried on the lodge regalia, however, and that loss will be heavy.

Gov. Hadley Sent Back Burlington Boy Who Has Been in the Penitentiary.

Schroyer is a Burlington Junction boy and was sent up at the February term on a charge of carnal knowledge, the prosecuting witness being Miss Nellie Marie Palmerton, under age of 18.

The conditions of the parole were that he was to marry Miss Palmerton and that he was to behave. So a marriage license was issued Saturday morning by Recorder Wray to Irvin Schroyer and Miss Palmerton, and they will be married at Burlington Junction.

Schroyer was sent up for two years, and when he was paroled he had served nine months of his time.

I pull the veil from Mystery,
And show her cynic's smile;
Men look a foolish look, and feel
They knew her all the while.

I give a youth the power to tell
Old lore that is like new;
The wise men wag their heads and frown,
And know his words are true.

A beggar played his violin
Where wind folk sob and sing;
I whispered to his heart, and now
He plays before the king.

The crowd saw but the parts of steel
Piled high before their eyes.
Long to the builder's heart I came—
He saw his tower rise.

I am a guest that comes and goes,
Not lured by throne or mart;
I give to Man the loaf of Life—
Or else I break his heart.

Advertising Farm Poultry.

If you poultry fanciers were as good advertisers as the roosters you exhibit your profits would climb to centerpole heights the first year. No sooner does a man enter the exhibit room than the roosters begin an ear-splitting contest for his attention. They know they have merits and have an idea the best way to distract attention from blue-blood rivals is to attract attention to themselves; which is the true spirit of advertising. What profit it, fellow fanciers, if you have the best birds in the world if the world knows nothing about it? And how is the world going to know about it if you are too modest or too close-fisted to tell about it? Do you send good money to distant states for stock for improving your flock just because you accidentally heard of the fancier who got your order or was it because you saw his advertisement somewhere? And how do you expect to get orders from other neighborhoods than your own unless you buy an occasional bit of advertising space—Jack Blanton in the Paris Appeal.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

IRON WORKERS GRANTED BAIL

Bonds of $1,100,000 Required of 32 Convicted Men.

SIXTY DAYS TO FILE APPEAL.

Judge Baker of United States Court of Appeals Intimates Undue Haste Used in Committing Men to Leavenworth—Hockin Not Affected.

Chicago, Jan. 4.—Bonds aggregating $1,100,000 must be given if thirty-two of the thirty-three labor leaders convicted of conspiracy to transport dynamite are to take advantage of the granting of a writ of supersedeas staying the execution of their sentences by the United States circuit court of appeals in this city.

Whether this sum can be obtained was admitted by counsel for the defendents to be a matter of grave doubt, but they expressed the belief that at least some of it could be secured—enough to accomplish the liberty of President Frank M. Ryan and a few others until a decision has been reached on an appeal, for the filing of which the court allowed sixty days.

The decision involves only thirty-two of the thirty-three men now in the Leavenworth penitentiary, as Herbert S. Hockin, designated among his fellow prisoners as the "informer," will not appeal.

Judges Baker and Seaman heard the arguments and the decision was given orally by Judge Baker. He took occasion to intimate that undue haste was manifested at Indianapolis in committing the defendants to prison.

The writ was issued largely on the point raised by the defense that the iron workers were convicted of a conspiracy to commit offenses continuously.

Anderson to Pass on Bonds.

In fixing the amount of bail the court was influenced by the fact that the offenses involved are not extraditable. Judge Anderson, who presided over the trial court at Indianapolis, was authorized to pass on the suitability and adequacy of any bonds offered. District Attorney Miller of Indianapolis, who represented the government at the proceedings, said the bonds of surety companies probably would be acceptable, but that the surety must schedule in property twice the amount of the bond.

A basis of $10,000 for each year's sentence was used by the court in fixing the amount of the bonds. As Ryan was sentenced to seven years, his bond was fixed at $70,000, and the same ratio was preserved throughout for the other convicted men.

TURKS MUST YIELD BY MONDAY OR FIGHT

Ultimatum Follows Reading of Ottomans' Terms.

London, Jan. 4.—Although the word "ultimatum" was not pronounced, what practically was an ultimatum was presented to Turkey at the peace conference on behalf of the Balkan allies. Lazar Miyuskovitch, head of the Montenegrin delegation, after the Turks had submitted a proposal which was considered inacceptable, told Rechad Pasha, chief delegate of the Ottoman empire, that either by Monday Turkey must find a way to renounce to the Balkan allies her rights over the island of Crete, cede the islands in the Aegean sea and present a rectification of the frontier of European Turkey, which would include Adrianople in the territory of the allies, or the allies would consider that further peace negotiations were useless.

AUTO BANDITS GET JEWELRY

Running Battle Is Carried On in Streets of Chicago.

Chicago, Jan. 4.—Four automobile bandits smashed in a jeweler's window here and escaped with a tray of diamonds, after a revolver fight with the police, punctuated with spectacular features. Their escape was aided by a fashionably dressed woman, who fainted in the arms of a uniformed policeman as he was drawing his revolver. As soon as the thieves were out of sight the woman recovered herself and disappeared.

A few minutes later the bandits' car was boarded by a policeman, who ordered them to drive to a police station for speeding. They wheeled into a quiet street with the policeman and there shot, stabbed and slugged him and threw him off the car.

The men abandoned their automobile, which had been stolen just before the robbery, and disappeared in a crowded section of the west side. The raid and running fight was one of the most thrilling automobile bandit outrages in the recent prevalence of this type of crime in this city.

Indian Councilors Removed by Fisher.

Washington, Jan. 4.—Seven members of the Osage Indian tribal council were removed from office by Secretary of Interior Fisher, who alleges in a statement that the council was influenced by the Uncle Sam Oil company and three individual applicants who had tried to secure the lease of 800,000 acres of oil and gas land, comprising the entire unleased portion of the Osage reservation. The secretary ordered a new council elected.

ROCKEFELLER TO ACCEPT SERVICE

Agrees to Receive Subpoena, but Will Not Testify.

TOO SICK TO BE A WITNESS.

Independent Opinion Concerning the State of Health of Mr. Rockefeller May Be Required by Congress—Will Not Endanger His Life.

New York, Jan. 4.—William Rockefeller has agreed through his counsel, John A. Garver, to accept service of a subpoena to appear on Jan. 13 before the Pujo committee of the house of representatives at Washington investigating the money trust, according to an announcement made at the office of Samuel Untermyer, counsel for the committee. Mr. Untermyer, in behalf of the committee, it was said, has by the direction of Chairman Pujo accepted these offers.

No intimation of the whereabouts of Mr. Rockefeller was contained in the statement. As a result of the agreement the sergeant-at-arms of the house has been instructed to discontinue his efforts to effect service on William Rockefeller.

While accepting service, the statement avers, Garver advised Untermyer that Rockefeller's condition of health is very precarious and that it would be impossible for him to appear as a witness at Washington or submit to examination at his home.

Mr. Rockefeller has been informed that having now submitted to the authority of the committee, he must present his excuses to the committee in due form for such action as it may deem proper. If it is established to the satisfaction of the committee that it will be impossible to obtain the testimony of Mr. Rockefeller without imperilling his life, the statement says, the committee would, of course, not feel justified in taking any such extreme action. It may, however, conclude to secure an independent opinion.

VIOLENT STORMS IN EAST

Disturbances Pursue Erratic Course Through Entire Country.

New York, Jan. 4.—The first severe storm of the new year and the most destructive one of the season swept along the Atlantic coast, causing great property loss. Simultaneously came reports of storms of equal violence in portions of the south and middle west and along a part of the Pacific coast. Wire communication in all sections of the country was crippled. Damage caused to shipping on sea, lake and harbor can only be estimated.

One death has been reported here, that of a Brooklyn man, blown from a scaffold.

In this city rain was followed by a gale that reached a maximum velocity of eighty miles an hour, working havoc on land and water. Reports from up-state and suburban points told of suffering and damage caused by the wind.

The hurricane-like storm lashed up high waves from Sandy Hook to the river's entry into New York harbor, sinking tugs and barges and driving other craft into perilous positions. From capsized small craft scores of persons were rescued.

CASTRO MAY BE RELEASED

Writ of Habeas Corpus Is Granted by Federal Court.

New York, Jan. 4.—A writ of habeas corpus was granted for the release of Cipriano Castro from Ellis island by the federal court here, in the contention that the former president of Venezuela was being held "without any authority of law" and that he had been denied the right to consult with an attorney. The application was made by George Gordon Battle.

The action in Castro's behalf came as a great surprise, inasmuch as he had announced that he would voluntarily leave the country, having set his departure for today on the steamship Amerika.

Judge Holt set no date for the return of the writ. Mr. Battle went immediately to Ellis island for a conference with his client.

Long Brief Filed in Case of Mylius.

New York, Jan. 4.—One of the longest "briefs" ever filed in the case of a detained immigrant is an appeal from the order of the special board of inquiry that Edward F. Mylius, who had served a year in an English prison on conviction of having published a libel against King George of England, be deported. The appeal contends that his offense was a political one and did not involve moral turpitude.

Senator Bailey Hands in Resignation

Washington, Jan. 4.—Senator Joseph W. Bailey sent his resignation as senator from Texas to Senator Gallinger, to take effect immediately. R. M. Johnston is now in the city and Senator Bailey said that he would be appointed by the governor to succeed him, with the expectation that the legislature when it meets would elect him to fill out the unexpired term.

Three Killed in Wreck of Train.

Mobile, Ala., Jan. 4.—Three persons were killed and a number injured when a New Orleans, Mobile and Chicago train was wrecked near Merrill, Miss.

Old Proverbs Made New.

Governor Wilson's remark that if any one starts a panic he will hang him higher than Haman suggests the bringing of several proverbs down to date. For instance:

A threat in time saves nine.

An ounce of warning is worth a pound of punishment.

A word to the sacred is sufficient.

To Wall street:

The fear of the law is the beginning of wisdom.—The Commoner.

A Hero in a Lighthouse.

For years J. S. Donahue, So. Haven, Mich., a civil war captain, as a lighthouse keeper, averted awful wrecks, but a queer fact is, he might have been a wreck himself if Electric Bitters had not prevented. "They cured me of kidney trouble and chills," he writes, "after I had taken other so-called cures for years, without benefit and they also improved my sight. Now, at seventy, I am feeling fine." For dyspepsia, indigestion, all stomach, liver and kidney troubles, they're without equal. Try them. Only 50 cents at the Orear-Henry Drug Co.—Advertisement.

Water Surface of Globe.

The portion of the earth's surface that is covered by water, when the lakes and inland seas are included, is three times as great as the dry land area. The surface area of the oceans is 127,000,000 square miles—an area more than 40 times as large as the United States. The ocean waters teem with life. Though thousands of water creatures are known and classified, scientists are continually discovering new life forms in the ocean depths. Heretofore dragnets have been mainly depended upon, but there are doubtless many sea animals that elude these trawls.

Books Bound in Rat Skin.

It appears that a new use has been found for the skin of the common brown rat. In England, it is said, the bookbinders have taken to using these skins for covers of fine editions hitherto bound in high grade leathers. It is reported that a trade amounting to one-quarter million dollars a year has developed in Great Britain and that many skins are imported from Calcutta. Rat skins have long been used for purses, gloves and similar small articles, and are proving very useful for these purposes.

GIVING THE PLUG HIS DUE

Steadygoing, Sensible Qualities Are Not Always Accorded the Recognition That They Deserve.

Don't make fun of the plug. He may be slow and awkward and never get to the stable until dark, but he is the fellow who in the end will bring home the coin, says a Kansas City writer. The plug horse that pulls the lister all day in the field puts more money in the bank for the honest farmer than the race horse that goes out and turns a half in 0:50 flat and then loafs for two weeks waiting for another race to be matched. The old plug goes out in sunshine and storm and pulls in a few dollars every week, but the race horse waits for the day when the track is good and then generally loses more than he wins. The steady old plug keeps the wolf from the door, while the race horse causes the mortgage to be foreclosed.

Just so with the man. Pin your faith to the plug who keeps eternally at it; the fellow who gets up every morning and does so much and is ready to do it again next day. He lays up more shining dollars in the bank than the swift sport who lies around all summer waiting for luck to come along and turn a stream of silver into his pocket. One cackling Plymouth Rock hen is worth a dozen screaming eagles when it comes to paying off the mortgage. The plug is the fellow who steadies the ship and acts as ballast when the boat begins to rock. The plug is the fellow who lives contentedly and long and when he passes away the local paper says, "He leaves his family in comfortable circumstances."

First "Man of Straw."

The phrase, "a man of straw," had its origin in England at a time when men might easily be procured to furnish evidence upon oath in almost any emergency. It appears that persons of this description were accustomed to walk openly in Westminster hall with a straw projecting from their shoes, thus signifying they sought employment as witnesses. Hence the expression.

An advocate who desired a convenient witness knew by this sign where to find one; and the colloquy between the two was brief.

"Don't you remember?" the advocate would ask. The party would glance at the fee and give no sign, but when the fee was increased his powers of memory increased with it, and straw shoes went into court and swore as desired.

Miss Ida Farran went to St. Joseph Saturday morning.

MADE HIM GOOD AMERICAN

Act of Wise Father That Kept His Boy in the Path of His Birth and Duty.

It is claiming rather a great deal to say that a child's whole future career may depend upon the hearing of a story! But, unquestionably, it is true. A boy I know, whose parents were obliged to live in England during two of his early years—from the time he was eight until he was ten—said to his father one day: "Am I an Englishman, an American, or haven't I any country at all?"

His father, a loyal American, startled at this question, read to the boy "A Man Without a Country."

"You are an American," he told the boy. "Never forget that!"

The boy, now a man, is just about to enter the United States army. Much of his life has been passed in other countries, but he is an American.

"I think I might have become an Englishman, or a man with no particular loyalty to any flag," he said recently, "had it not been for the story of 'A Man Without a Country,' which my father read to me when I was a little boy in England. I didn't understand all of it, but I understood enough to keep me forever loyal to the land of my birth, no matter where I might happen to be growing up."—Elizabeth McCracken in the Home Progress Magazine.

Giant Conflict.

Two huge fish, a shark and a jewfish, fought to their death late the other afternoon, off the municipal pier at Santa Monica, Cal., while hundreds of fishermen looked on. Both sea monsters followed a school of mackerel in-shore and as soon as they sighted each other the battle was on. During the combat, which lasted an hour, both fish were nearly entirely out of the water. Then they disappeared for a few moments, when both again came to the surface dead. With gaff hooks they were hauled on to the pier. The shark, measuring six feet in length, weighed 142 pounds, while the jewfish, a fraction over seven feet, tipped the pier scales at 226. Both were frightfully mangled. The shark's head was chewed to a pulp, while the jewfish's body was nearly severed by the sharp teeth of the shark.

Mr. and Mrs. T. P. Curran of Barnard spent the day Saturday in Maryville with Mr. and Mrs. John Bookman.

David Richey and M. C. Richey will leave soon for Springfield, Mo., where they are intending to locate.
